

Customer First Performance-based Construction At The Ready!

Floors 1 to 5 (Brief Introduction- “What Does Your Company Do?”):

At Centennial we manage construction projects at large facilities and infrastructures such as school districts, universities, municipalities and federal locations. In fact, because of our proven programs, we are building integrated construction communities of cooperation and collaboration based on trust.

Floors 6 to 10 (“Tell Me More, That Sounds Interesting”):

We develop long-term custom construction programs that help publicly funded municipalities, educational institutions, and federal facilities so that the people impacted where they live, learn and work get the full benefit of the improved environments. We are unlike any construction provider you have ever experienced, providing a wide and creative level of construction program support. Because of our customer end results focus we strive for complete satisfaction and to be on schedule and on budget with every construction program we manage.

Getting Off Elevator – The Complete Pitch (“Do You Have Time to Share More?”):

Centennial Contractors Enterprises, Inc. (Centennial) leads the market in responsive performance-based construction services and solutions. We support our customers’ large facilities and infrastructures by managing ongoing construction programs focused on renovation, rehabilitation and repair work. We are a pioneer, expert and leader in Job Order Contracting (JOC), and we also offer Design-Build and Custom Solutions. By utilizing proven processes, having a strong commitment to safety, developing long-term relationships, acting locally through project teams and subcontractors, and communicating openly and responsively, we deliver outstanding results and complete customer satisfaction. You can learn more by going to www.CentennialNOW.com

Could You Tell Me More About JOC?:

Job Order Contracting (JOC) is a program for managing construction that supports multiple projects in renovation, rehabilitation, and repair. Major advantages to customers include simplified process that is fast and responsive to their needs, excellent quality in construction, and predetermined pricing coefficients and scoping so that there are no surprises. Centennial’s JOC program helps customers better manage project backlog at facilities, campuses, and infrastructures.
